

TRISHITA GAYEN

Software Developer | MERN Stack Developer

+91-8910116015 | gayentrishita@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [LeetCode](#)

SUMMARY

Full-Stack Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js) and REST API development. Experienced in building scalable applications, implementing secure authentication (JWT, OAuth), and optimizing backend performance. Strong foundation in Data Structures, DBMS, and Computer Networks.

EDUCATION

B.Tech in Computer Science and Engineering

Graduation Year: 2026

Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex

CGPA: 7.47 / 10

Senior Secondary

Passed: 2022

Jadavpur Sammilita Balika Vidyalaya

Percentage: 71% (WBCHSE)

SKILLS

Languages: C, C++, Python, JavaScript, Java

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, Prisma ORM, Vercel

Core Concepts: DSA, OOP, DBMS, OS, CN, REST API, MVC, Authentication

Soft Skills: Communication, Team Collaboration, Problem Solving, Presentation Skills, Active Listening

EXPERIENCE

Web Development Intern (Remote)

May 2024 – July 2024

OctaNet Services Pvt. Ltd.

Tech Stack: MERN Stack, JavaScript, JWT, REST APIs, Git, CI/CD

- Developed and deployed an **AI Invoice Generator** using the MERN stack with JWT authentication, designing scalable RESTful APIs and CRUD operations, which increased user engagement by 30%.
- Integrated real-time chat using Gemini API and optimized backend performance, improving API response time by 25%.
- Worked in an Agile environment with Git and CI/CD pipelines.

PROJECTS

AI Personal Assistant | *Python, NLP, Speech Recognition* | [GitHub](#)

October 2025 – Present

- Developed an **AI-powered personal assistant (KAIRO AI)** using Python with real-time speech recognition and NLP processing.
- Automated **10+ system-level tasks**, reducing manual effort by 40%.
- Built intelligent web automation modules to perform hands-free Google and YouTube searches using NLP-driven query interpretation, improving user convenience.

AI Voice Dental Assistant | *React.js, Node.js, PostgreSQL, Vapi AI* | [Live Demo](#) | [GitHub](#)

November 2025

- Built an **AI voice dental assistant (DENTWISE)** with secure authentication using Clerk.
- Integrated **Vapi AI** for real-time voice interaction and **PostgreSQL** for reliable data storage and appointment management.
- Created and implemented automated appointment booking workflows, including voice-based scheduling, email notifications, and backend validation, improving booking efficiency.

AWARDS & CERTIFICATIONS

- Solved **500+ Data Structures and Algorithms problems on LeetCode**, demonstrating strong problem-solving and algorithmic thinking skills.
- Completed **Full Stack Web Development Certification** from Ardent Computech Pvt. Ltd., gaining hands-on experience in the MERN stack.
- **Languages Known:** English, Hindi, Bengali
